

History

Year 2

Change Makers

AD 1820 to AD 2023

What big changes have significant people made?

Shakespeare Primary School and Nursery

Essential knowledge

There are many significant people throughout history who have made changes to our world. In this topic, we will research three significant people:

Florence Nightingale was born in 1820 and chose to become a nurse. She realized that clean conditions in hospitals could prevent diseases from spreading. She used her discovery to help improve hospitals across the UK.

Rosa Parks was born in 1913 in the USA. At this time racism was a problem faced by many and she worked to try bring this to an end. Through her peaceful protests she managed to bring changes that helped make the law fairer for all people.

Greta Thunberg is a Swedish climate activist who is working to stop climate change. Through her protests she has inspired many people to change their ways so that we cause less harm to the Earth.

Nightingale goes to the Crimean War to work as a nurse. 1853AD	Nightingale starts a nursing school in St Thomas's Hospital 1860AD	Parks arrested for not giving up her seat for a white person on the bus. 1955AD	Alabama Bus Boycott 1955-56 AD	Thunberg's school strike against climate change. 2018AD

Speak like a Historian

Climate Change

This is a change in the normal weather (such as temperature and rainfall) over a long period of time.

Racism

This is when people are treated unfairly because of their skin colour or background.

Significant

This is to be or cause something of importance.

Society

These are all the groups of people that share the same laws and lives within the same area as one another.

Project questions

- What makes a person significant to the world?
- How did Rosa Parks fight against racism?
- How did Greta Thunberg inspire people to take action against climate change?
- How did Florence Nightingale help to improve conditions within hospitals?

Significant people

Florence Nightingale (1820-1910) was a nurse in the 1800s. She made significant changes to conditions within hospitals to make them safer for all.

Rosa Parks (1913-2005) was an activist who fought against racism in the USA. She used peaceful protests and inspired many to join her cause.

Greta Thunberg (2003-present) is a climate change activist who continues to work to prevent damage being caused to our Earth.

Substantive concepts

- Democracy and Rights
